

## Regenexx<sup>®</sup> at Work

MAY 2025 | VOLUME 32

 3-MINUTE READ

## KEY TAKEAWAYS

-  In 2011, to increase awareness and access, Regenexx built a **network of licensed physicians**.
-  Now in 2025, our **fastest-growing year to date**, we've **reached major growth milestones for the network**.
-  With **200 total locations** projected for EOY, employers partnering with the Regenexx Corporate Program can be **served even better with improved member access**.

# 2025: A Year of Major Growth Milestones

Since 2005, **Regenexx has celebrated several milestones** as a pioneer of regenerative therapy for musculoskeletal (MSK) issues. This month, let's look at exciting milestones we've recently reached to **expand locations in the licensed Regenexx network**—and what this means for both employers and members.

## The Network of Licensed Physicians: How It All Started

In all too many instances of MSK pain, if patients don't respond to initial conservative care (like physical therapy), physicians often give a knee-jerk response: *"The only remaining option is surgery."* Not true.

As a disruptive innovation, the Regenexx approach provides an **alternative to surgery** that can **reduce the need for up to two-thirds of elective orthopedic surgeries**.<sup>1</sup> Further, the Regenexx approach aims to **improve mobility and quality of life**—with **less downtime** and **reduced need for prescription medications compared to surgery**.

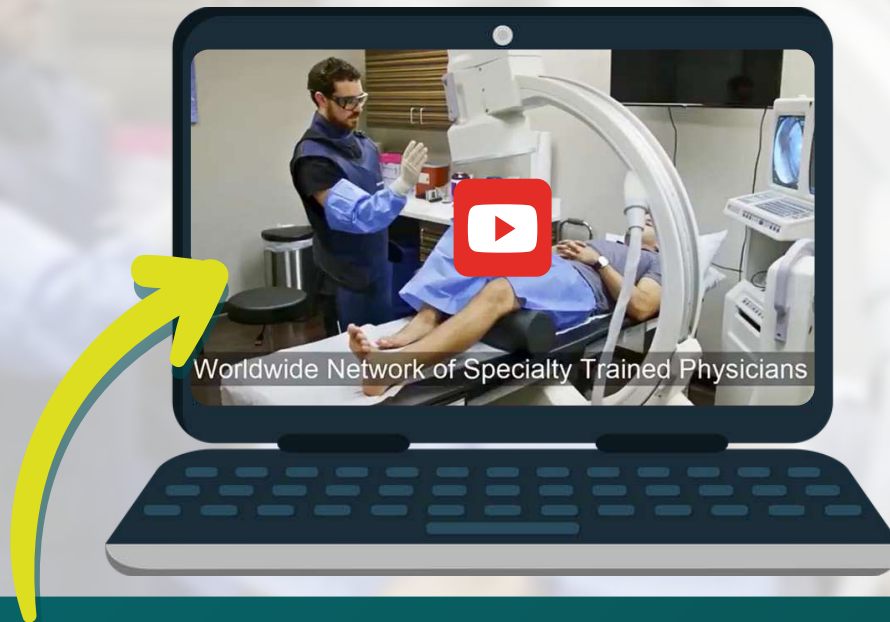

Embarking on a mission to increase awareness and access, Regenexx started growing a **network of licensed physicians** composed of MSK and orthopedic specialists in 2011.

## 2025: Significant Expansion Across the U.S.

Now in 2025—**our fastest-growing year to date**—we're thrilled to announce **reaching major growth milestones for locations** in the licensed Regenexx network.<sup>1</sup> Members will now have easier access to the Regenexx approach and the significant difference it can make in their lives.

- 75 pending new locations** (with several already onboarded by Q2, including **Mission and Pearland, TX; Metairie, Gretna, and Covington, LA; and North Naples, FL**)
- Over 130% projected network growth** compared to 2024
- 200 total locations forecasted by EOY**

Nationwide expansion enables employers partnering with the Regenexx Corporate Program to be **served even better with improved member access.**

**Watch to learn more about how physicians within the licensed Regenexx network make a difference.**

LEARN HOW EMPLOYERS AND MEMBERS BENEFIT  
FROM THE GROWTH OF THE NETWORK OF  
LICENSED PHYSICIANS:

## Core Benefits of Nationwide Expansion

Easier  
for members  
to access  
care

Enables  
onboarding of  
larger national  
accounts

Supports  
continued  
recognition of  
regenerative  
therapy as an  
alternative to  
surgery

**You've learned about the impact of the Regenexx approach and the difference it can make for members, who will have more access than ever.**

Now discover the impact the Regenexx Corporate Program can make on your clients' bottom line by **requesting an Impact Study.**

We'll analyze your clients' de-identified claims data and report back to you about the potential savings so you can share the potential impact with your clients.

## Altus Spine and Joint Care, PLLC

Mission, TX

### Jaime Sued, MD

Dr. Sued was inspired to pursue a medical career early on, but what truly solidified his path was his grandparents' chronic pain. This exposed him firsthand to its profound impact on people's lives.

As a proud South Texas resident for over two decades, Dr. Sued is committed to providing compassionate care. He is particularly focused on offering innovative treatments that aim to manage pain as well as promoting the body's natural ability to heal for patients dealing with orthopedic conditions.

\*This provider is NOT authorized by Regenexx to treat the C0-C1 or C1-C2 levels of the neck or CCI (craniocervical instability).

#### AREAS TREATED

Cervical spine (not upper cervical or CCI)\*, elbow, hip, knee, lumbar spine, shoulder, thoracic spine

What is the  
**Regenexx**  
Corporate Program?

The Regenexx Corporate Program provides **MSK cost savings for self-funded employers**. According to a Validation Institute cost-savings analysis, **procedures using Regenexx injectates were ~50% less expensive than the surgery avoided.**<sup>2</sup>

The program continues to see traction among employers, brokers, and third-party administrators who have chosen to partner with us. The Regenexx benefit is no cost to add and simple to include in any self-funded healthcare plan.

Learn how adding the Regenexx benefit can **reduce costs by up to 70%** on individual surgeries while offering members a new option in care.<sup>1</sup>

*The doctors featured are independent contractors who have licensed intellectual property from Regenexx for the preparation of medical injectates. The inclusion of these doctors is solely for informational purposes, and nothing in this newsletter content or other marketing materials should be interpreted as establishing an employer-employee relationship, partnership, or agency between Regenexx and the doctors. Likewise, these doctors are not professionally trained or licensed by Regenexx.*

*Cost avoidance estimates for individual groups are not reflective of the potential cost avoidance estimates for another group. Any estimate of cost avoidance for a group is specific to their employee population. To understand how your company's surgical experience may relate to the Regenexx approach, you can request a [Regenexx Corporate Program Impact Study](#).*

*Cost savings estimates: Physicians within the licensed Regenexx network indicate the surgical procedure for which Regenexx provider patients are a candidate. The Regenexx Corporate Program then measures the actual cost of the procedure using Regenexx lab processes against the cost of the surgical alternative. While the Regenexx Corporate Program does post service reviews and assess a percentage of Regenexx provider patients, not all these cases have been verified by a third party. Fair cost estimates based on Denver, CO ZIP code. In some cases, a generic "arthroscopy" cost estimate had to be used when a detailed condition-specific estimate was unavailable.*

*Like all medical interventions, procedures using Regenexx lab processes have a success and failure rate. Regenexx provider patient reviews and testimonials in this email should not be interpreted as a statement on the effectiveness of regenerative therapy for anyone else. Industry professional reviews and testimonials reflect the experience of that entity with the Regenexx Corporate Program. To discuss what a partnership with Regenexx could look like for your company or client, [contact our team](#).*
