

"I'm able to do a lot more work-wise than before. I'm able to squat, bend, and get on my knees.

This has been a great help."

—Kenneth M.,
Regenexx Provider Patient

Orthobiologics Quickguide

Learn how orthobiologics can help unions take a step forward in MSK care:

- ✓ **Orthobiologics:** Naturally derived substances that can **support the body's natural healing processes** when administered into bones, joints, muscles, ligaments, or tendons.
- ✓ **In 2005**, the Regenexx protocol innovated the use of **interventional orthobiologics delivered via image-guided injection**.
- ✓ Procedures using Regenexx injectates provide a **less invasive alternative to orthopedic surgery** using **orthobiologics derived from only the patient's own cells**.

The Regenexx Approach for Unions

Musculoskeletal (MSK) issues can lead to **decreased productivity, missed work, and increased costs**—especially when it comes to **expensive surgery**.¹

The Regenexx approach provides an MSK care option that can **reduce the need for up to 70% of elective orthopedic surgeries**.²

The Regenexx Corporate Program: Innovation + Impact²

The Regenexx Corporate Program can help unions **reduce costs by up to 70% on individual surgeries** and **provide an option employees prefer over surgery**.

An Innovative Option

Patients with Regenexx protocol often:

- **Return to activities faster**
- **Have less downtime**
- **Report less pain**

...without surgery

Regenexx Corporate Program Impact on Unions²

Total cost savings:
~\$7MM

Total surgeries avoided:
>500

Cost to add the Regenexx benefit:
\$0

Cost avoidance estimates for individual groups are not reflective of the potential cost avoidance estimates for another group. Any estimate of cost avoidance for a group is specific to their employee population. To understand how your company's surgical experience may relate to Regenexx, you can [request a Regenexx Corporate Program Impact Study](#).

Cost savings estimates: Physicians within the licensed Regenexx network indicate the surgical procedure for which patients are a candidate. The Regenexx Corporate Program then measures the actual cost of the procedure using Regenexx lab processes against the cost of the surgical alternative. While the Regenexx Corporate Program does post service reviews and assess a percentage of patients, not all these cases have been verified by a third party. Fair cost estimates based on Denver, CO ZIP code. In some cases, a generic "arthroscopy" cost estimate had to be used when a detailed condition-specific estimate was unavailable.
